Earth Day
Scavenger Hunt

Welcome to our Earth Day Scavenger Hunt! Get ready to explore the outdoors and discover the wonders of nature while learning about how to protect our planet. Here's your list of items to find:

Something Green: Look for something in nature that is the color green. It could be a leaf, a blade of grass, or even moss growing on a rock.

A Flower in Bloom: Find a flower that is in full bloom. Take a moment to admire its beauty and smell its fragrance if you can.

A Piece of Trash: Unfortunately, litter can be found almost anywhere. Pick up a piece of trash and dispose of it properly to help keep our environment clean.

An Animal Track: Keep your eyes peeled for tracks left behind by animals. They could be footprints in the mud or imprints in the sand.

A Bird's Nest: Look high up in the trees for a bird's nest. Be careful not to disturb it, as it may still be in use by a nesting bird.

A Rock with an Interesting Shape: Find a rock that stands out to you because of its unique shape or texture. It could be smooth, jagged, or even have patterns on its surface.

A Fallen Branch: Spot a fallen branch on the ground. Take a moment to examine it and see if you can identify what type of tree it came from.

A Puddle of Water: After a rain shower, you're likely to find puddles of water on the ground. Take a moment to observe the reflections and ripples in the water.

A Bug or Insect: Search for a bug or insect crawling or flying around. Be gentle if you decide to catch it for a closer look, and remember to release it unharmed afterward.

A Symbol of Recycling: Find something that represents recycling, such as a recycling bin or a symbol made from recycled materials.

Remember to be respectful of nature and leave everything as you found it. Once you've completed your scavenger hunt, take some time to reflect on the beauty and importance of our planet Earth.

Happy Earth Day! 🌍🌱
