

WORLD Environment DAY

www.unleashedlearninggateway.com

What is World Environment Day?

World Environment Day started back in 1972. The United Nations, which is a group of countries working together on big issues, decided that we needed a special day to focus on our environment. They wanted to remind everyone how important it is to take care of our planet. The first celebration was in 1974, and since then, it has grown into a huge event celebrated by millions of people worldwide.

Theme for 2024: "Restore Our Earth"

Each year, World Environment Day has a theme to help us focus on a particular issue. For 2024, the theme is "Restore Our Earth." This theme is all about fixing the damage we've done to our natural world and making it healthy again. It's like giving the Earth a chance to heal and thrive!

Why is "Restore Our Earth" Important?

Our planet is like a giant puzzle, and every piece—trees, rivers, animals, and even us—fits together. When parts of the puzzle get damaged, the whole picture suffers. Here's why restoring our Earth is so important:

- **Healthy Forests:** Trees clean our air, provide homes for animals, and give us shade. Planting trees and protecting forests help keep the air clean and cool our planet.
- **Clean Water:** Rivers, lakes, and oceans provide water for drinking, farming, and fun activities like swimming and fishing. Keeping these waters clean is crucial for all life on Earth.
- **Biodiversity:** This fancy word means having lots of different kinds of plants and animals. The more variety we have, the stronger and more resilient our planet is. It's like having a big team with lots of different players, each one with special skills.

How Can We Help?

You might be wondering, "What can I do to help?" Well, there are lots of ways you can make a difference!

At Home

- **Save Water:** Turn off the tap while brushing your teeth and take shorter showers. Little actions can save a lot of water!
- **Reduce Plastic Use:** Use reusable bags, bottles, and containers instead of single-use plastics. Help your family remember to recycle plastic, glass, and metal.

In Your Community

- **Clean-Up Events:** Join or organize local clean-up events to pick up litter in parks, beaches, or your neighborhood. It's a great way to make your community cleaner and safer for everyone.
 - **Plant a Garden:** Whether it's a flower garden, vegetable garden, or just a few potted plants, gardening helps the Earth by creating more green spaces and providing food for pollinators like bees and butterflies.
 - **Start a Green Club:** Get together with friends and start a club focused on protecting the environment. You can plan activities like recycling drives, tree planting, and nature walks.
- Reduce Waste:** Encourage your others to reduce waste by using less paper and more digital resources. Set up recycling bins for paper, plastic, and other recyclables.

Fun Ways to Celebrate World Environment Day

World Environment Day isn't just about hard work—it's also about having fun and celebrating our amazing planet!

- **Nature Scavenger Hunt:** Organize a scavenger hunt to find different types of plants, animals, and rocks. It's a fun way to learn about local nature.
- **Crafts from Recyclables:** Get creative and make art or useful items from recycled materials. How about a bird feeder from a milk carton or a pencil holder from an old can?
- **Story Time:** Read books about the environment and share what you've learned with family and friends. Some great reads include "The Lorax" by Dr. Seuss and "The Great Kapok Tree" by Lynne Cherry.

World Environment Day is a fantastic opportunity to learn more about our planet and how we can protect it. Whether you're planting a tree, picking up litter, or simply learning about nature, every action counts. So, this June 5th, let's all come together to "Restore Our Earth" and make our world a better, greener place to live. Remember, you have the power to make a difference!

Question 1

What is the date of World Environment Day?

- A. April 22
- B. June 5
- C. March 21
- D. October 16

Question 2

Which organization established World Environment Day?

- A. World Health Organization (WHO)
- B. United Nations (UN)
- C. Greenpeace
- D. NASA

Question 3

What is the theme for World Environment Day 2024?

- A. Beat Plastic Pollution
- B. Go Green
- C. Restore Our Earth
- D. Save the Oceans

Question 4

Which of the following is NOT a way to help restore our Earth?

- A. Planting trees
- B. Using reusable bags
- C. Taking shorter showers
- D. Using more single-use plastics

Question 5

Why is biodiversity important for the planet?

- A. It makes the planet more colorful.
- B. It helps ecosystems be more resilient and strong.
- C. It increases the population of a single species.
- D. It reduces the amount of oxygen in the air.

Question 6

What can you do to help reduce water waste?

- A. Leave the water running while brushing your teeth
- B. Take shorter showers
- C. Use more water for washing dishes
- D. Water the garden in the middle of the day

Question 7

What is one fun activity you can do to celebrate World Environment Day?

- A. Watch TV all day
- B. Organize a nature scavenger hunt
- C. Go shopping for new clothes
- D. Drive around town for no reason

Question 8

How can schools participate in World Environment Day?

- A. By increasing paper use
- B. By starting a green club
- C. By throwing away recyclables
- D. By using more single-use plastics

Question 9

What should you do with recyclable materials?

- A. Throw them in the trash
- B. Burn them
- C. Reuse them for crafts or projects
- D. Bury them in the ground

Question 10

Which book by Dr. Seuss is great for learning about the environment?

- A. Green Eggs and Ham
- B. The Cat in the Hat
- C. The Lorax
- D. Horton Hears a Who!

Answers

Question 1

Answer: B. June 5

Question 2

Answer: B. United Nations (UN)

Question 3

Answer: C. Restore Our Earth

Question 4

Answer: D. Using more single-use plastics

Question 5

Answer: B. It helps ecosystems be more resilient and strong.

Question 6

Answer: B. Take shorter showers

Question 7

Answer: B. Organize a nature scavenger hunt

Question 8

Answer: B. By starting a green club

Question 9

Answer: C. Reuse them for crafts or projects

Question 10

Answer: C. The Lorax
